

The REVE warm start, not depth: from scratch the two depths coincide at EVERY S, and both saturate near $S \approx 700$ while the warm-started curve keeps rising all three arms at fixed epoch 325, step-matched (4400 steps), test split (R6)

- depth-22, REVE WARM START — pool 2156, 3 draws
- depth-22, FROM SCRATCH — pool 2156, 3 draws
- depth-12, FROM SCRATCH — pool 1863, single draw, no band
